ALLEN COUNTY PUBLIC LIBRARY

3 1833 01187 1057

In the possession of Charles H. Thomas of Lewiston is a copy of the first issue of the Maine State Director and Gazetteer that came out in 1868—38 years ago. Among the voluminous advertising the Chicago World's Fair was featured.

The "New Light."

A Maximum Light at a Minimum Cost.
 Excels Gas and Electricity at One-Fourth the Cost.
 Insures Greater Brilliancy, Steadier Flame, Cheaper Light.

THE "NEW LIGHT" is simple, practical, effective and economical; produces a brilliant flame of 38-candle power, and places the luxury of a first-class light equal to gas or electricity, within the reach of all at a very moderate cost, whether in country, town or city.

For four years the "NEW LIGHT" System has been in operation in the East where more than 20,000 are in use, giving universal satisfaction, as is testified by hundreds of endorsements in possession of the Company.

The MAINE AUTOMATIC LIGHTING COMPANY, owners and operators of the "NEW LIGHT" in the State of Maine, solicit correspondence from parties taking an interest in modern progress.

Descriptive catalogue giving full particulars on application.

MARKS'

Patent Artificial Limbs.

WITH RUBBER HANDS AND FEET.

Are Natural in Action, Noiseless in Motion, and the Most Durable in Construction.

It is not unusual to see a farmer working in the fields with an artificial leg, or an engineer with hand on the throttle, or a conductor, brakeman, fireman, carpenter, mason, miner, in fact men of every vocation, wearing one or two artificial legs with rubber feet of Marks' Patents, performing as much labor as men in possession of all their natural members, earning the same wages; in fact, experiencing little or no inconvenience.

Over 14,000 in use, scattered in all parts of the world. Enti-

gent surgeons and competent judges commend the Rubber Foot and Hand for their many advantages. At every industrial exhibition where exhibited they have received the highest awards. They are endorsed and purchased by the United States and foreign governments. A treatise, containing 430 pages, with 260 illustrations, sent FREE; also a formula for taking measurements by which limbs can be made and sent to all parts of the world with fit guaranteed. Address

A. A. Marks, 701 Broadway, NEW YORK CITY.

PREFACE.

The first issue of the "MAINE STATE DIRECTORY AND GAZETTEER" is herewith presented to the public. We believe the information contained in the Gazetteer Department will be found useful, especially that relating to the stage lines, as we know, by experience, that no similar work heretofore published can compare with this for thoroughness and reliability, it having been gathered by our agents in the towns and from official documents, and will be revised annually.

In the Business Department it is our intention to give every kind of business, however small, in each town, that would interest the public. If errors are detected, we shall be grateful to anyone calling our attention to them, that they may be corrected in our next issue.

For the generous patronage received we express our sincere thanks. We remain

Very respectfully,

IT HAS OCCURRED TO US

That we are better situated to thoroughly
illustrate the practical side of

.. HOME, SWEET HOME

Than any other concern in New England
For several reasons: THREE in particular.

FIRST—

*We are the largest buyers and distributors
of House Furnishings in New England.*

SECOND—

*Being buyers in such large quantities, we
are naturally in a position to sell at low
prices.*

THIRD—

*Having a Capital of \$1,000,000.00 and
doing business on such an immense scale,
it stands to reason that we can offer you
easier terms than small dealers.*

**PROVIDENT LIFE AND TRUST COMPANY
OF PHILADELPHIA, PA.**

Incorporated 3d Month, 22d Day, 1865.

IT HAS NEVER APPEARED IN COURT TO CONTEST A DEATH CLAIM.

Assets, 12th Mo., 31, 1892.	\$23,029,737.10
Surplus, 4 per cent., 12th Mo., 31, 1892.	3,122,105.99
Insurance in force 12th Mo., 31, 1892.	94,726,533.00

The rate of mortality is less than that of any other company, and the dividends arising from that source will be correspondingly larger. The exhaustive report published by the Company, covering an experience of twenty years, shows that the number of deaths was one-third less than the number which should have occurred in accordance with the indications of the **American Experience Table of Mortality**, the standard of Pennsylvania, New York, and most of the states. Such a percentage of gain was never before realized.

Grants Annuities, Issues Life, Endowments and Partnership Policies.

You will be packing your trunks and grips for that long-planned trip to

The Great Chicago Fair.

Everybody wishes upon this, the opportunity of a life-time, to see as much as possible; therefore you should use NOT A LITTLE THOUGHT in the selection of THE ROUTE. The

Maine • Central • Railroad

Your own state line, is the eastern end of

Two Unequalled Routes to the World's Fair.

NUMBER ONE.

Leads from the coast and interior through Portland, thence over the White Mountain Division of the Maine Central, cutting the grand old White Hills in their central and most picturesque portion. The line then extends through St. Johnsbury, Swanton, and via the Rome, Watertown and Ogdensburg and New York Central 4-track line to Niagara Falls, preceeding thence via the Michigan Central R. R. to the

NUMBER TWO.

Proceeds as Number I through the Crawford Notch, one of the most remarkable mountain passes in the world, which justly ranks with Yosemite and Niagara as the three natural wonders of the world, thence via St. Johnsbury and Newport (Vermont) to Montreal,—fine views being afforded of the Dominion Capital,—Canadian Pacific Railroad to Detroit, thence on to the

WORLD'S FAIR GROUNDS.

Through Drawing Room Sleeping Cars via both routes from Maine to Chicago.

REMEMBER

The Maine Central is the ONLY line by which the Grand Scenery of the

WHITE MOUNTAINS AND NIAGARA FALLS

Can be enjoyed while en route to Chicago.

PORTLAND (city), Cumberland Co. It is the smallest town in the State in superficial area, occupying a small peninsular three miles long and three-fourths of a mile wide in Casco Bay, and sixteen islands and parts of islands from three to ten miles from the city. The Indian name was "*Machigonne*". The first settlers were George Cleeves and Richard Tucker in 1632. In 1637 a charter was obtained from Gorges and the territory became known as Casco. In 1658 Massachusetts applied the name Falmouth to Casco Neck and other territory about the harbor, and it was so called until its incorporation in 1786 as Portland. In March, 1820, the district of Maine was separated from Massachusetts and admitted into the Union as a State and Portland became its capital, but changed to Augusta in 1831. City charter adopted in 1832. P. O., *Portland* (international money order), *Peaks Island, Long Island, Diamond*. Population, 36,425. American Exp. Co., Can. Exp. Co., N. E. Desp. Exp. Leavitt's Patent Awning.

I have received patent on Awning, dated March 15th, 1892, the principle on which it is worked being a *decided improvement* on all others now in use for house and office purposes.

The Advantages are as Follows:

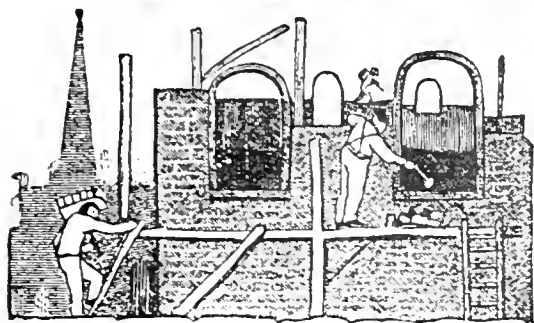

The sliding rods and slides are done away with. It is the *only Awning* that can be satisfactorily arranged for *ventilation of rooms*. By unhooking the side from which the air is stirring and hooking on under side of Awning, leaving the opposite side down, the air will strike that side and flow into the room, on the same principle of a wind sail in use on board of vessels. It comes lower down on window and does not project out so far, has a much better appearance from the street, it is much better adapted for resisting high winds, and when set, looks as though it was made over a block or form. When pulled up it goes to top of window, the sides going up with it, giving you *all the light on a dark day*. The old style covers, in a large number of cases, a great part of the upper sash when hauled up, shutting out the light and collecting the dust and dirt from the street. Directions for putting up go with all orders out of the city, where it is not convenient for me to attend to it. I am very well satisfied that *all parties requiring Awnings* will select this after examination, in preference to all others now in use. *Please call and examine.*

Percheron Stallion CAPTAIN PULLEY.

2,985 Percheron Stud Book of America. 2,664 French Register.

Captain Pulley is by LeDuc, dam by Poule by Papillion, he by Mountard, he by Vieux Co Co. He was foaled in the district of Alencorn, department of Orne, France, April 4, 1883. He stands 16 1/4 hands high, weighs 1,700 pounds; is black in color, with fine glossy coat, has a thick curly mane, and very heavy tail; a fine clean head, which he carries very high; arching neck, deep broad chest, long quarters, and wide flat legs, with the very best of feet. He has a very square, even gait, with good action, and a graceful movement, which, added to his great strength, spirit and tractability, combine to make him a very desirable road horse for one of his weight. This horse, now owned by C. M. Folsom, Oakland, Maine, will remain at the stable of C. M. Herrick, Waterville (address Oakland), where he will be allowed to serve a limited number of mares upon the following terms: Fifteen dollars in ten months if mares prove in foal. All mares disposed of will be considered in foal unless proven otherwise. All stock left with us will receive the best of care, but accidents and escapes will be at owner's risk.
